BarCodeJet®
The Easy Way to add Barcode Printing Capabilities to HP LaserJet printers and MFP devices

Look around any hospital, grocery store, mailroom or warehouse. You’ll see barcodes everywhere. From manufacturers looking to monitor their production and parts inventory, to distributors looking to speed postal delivery, to medical centers needing to track patients and medications, barcodes are an essential tool for any organization looking to simplify management of their operations.

In the past, barcode generation required dedicated printing hardware and specialized applications. But with BarCodeJet — brought to you by Capella Technologies — you can easily turn almost any HP LaserJet printer or MFP device into a high quality barcode printing system.

The Easy Barcode Solution
BarCodeJet is available as a DIMM, CompactFlash or USB module. Just plug the module into the appropriate port on your HP LaserJet Printer or MFP device, and you’re instantly ready for barcode printing. It’s that simple. On top of that, your device will still maintain all its previous functionality, helping you to get the most of your hardware investment.

Intelligent Barcode Printing
BarCodeJet is available as a DIMM, CompactFlash or USB module. Just plug the module into the appropriate port on your HP LaserJet Printer or MFP device, and you’re instantly ready for barcode printing. It’s that simple. On top of that, your device will still maintain all its previous functionality, helping you to get the most of your hardware investment.

Generate a Wide Range of Barcodes
BarCodeJet encodes data directly from the printer data stream, providing built-in support for all common one and two dimensional barcodes. This includes USPS Intelligent Mail barcodes and a wide range of standard UPC codes.

Ideal for a Wide Range of Applications
As an “in printer” solution, BarCodeJet is OS independent. That makes it an ideal solution for a wide array of common ERP systems — including popular SAP environments — as well as custom applications. BarCodeJet offers a complete set of both scalable and bitmap barcode fonts, making it perfect for mixed application environments that require both intelligent and font-only barcode support.

SAP Compatible
Designed for full compatibility with SAP, BarCodeJet gives SAP applications the power to produce highly readable barcode labels with no programming required. This capability extends to documents containing control and cross-reference barcodes, making BarCodeJet a valuable asset for any organization looking to better manage their stock or materials.

Complete Printer Enhancement Solutions
BarCodeJet is one of the many solutions offered by Capella Technologies to help you extend the capabilities of your HP LaserJet printer or MFP device and get the most out of your hardware and software investments. We offer solutions to help you create, enhance, secure, distribute and automate your business documents and take control of your printing processes and expenses. To find out more, contact your Capella Technologies representative today.

### One Dimensional Barcodes

- 25 Matrix
- 25 Matrix + CHK
- Australia 37
- Australia 52-FF-MET
- Australia 67-FF-MET
- CODABAR
- Code 25 (2 of 5) interleaved
- Code 39 (3 of 9)
- Code 39 + mod 43CHK
- Code 39 encode space before data
- Code 39 + CHK encode space before data
- Code 39 extended for lowercase
- Code 39 extended + CHK
- Code 93
- Code 128 with auto-switch feature
- Code 128 A, B & C
- EAN/JAN-8 & EAN/JAN-8 +2
- EAN/JAN-8 +5
- EAN-128
- EAN/JAN-13 & EAN/JAN-13 +2
- EAN/JAN-13 +5
- German Postal 25
- Leitcode 11 & 13
- Industrial 25 + CHK
- Interleaved 25 + CHK
- MSI Plessey + CHK 10 & CHK 11
- PostNet 9 & PostNet 5
- UCC-128
- UPC-A, UPC-A +2 & UPC-A +5
- UPC-E (UPC-E0 & UPC-E1)
- UPC-E +2 & UPC-E +5
- USPS Intelligent Mail®
- ZIP+4 PostNet 11

### Two Dimensional Barcodes

- Aztec
- Codablock F
- Data Matrix
- Maxicode
- PDF-417
- QR Code

### Bitmap Barcode, OCR & Legacy Fonts

- Code 39 (3 of 9) Barcode
- Code 128 (Standard & Wide) Barcode
- EAN/UPC (10 & 13 mil) Barcode
- PostNet Barcode
- USPS ZIP Barcode
- OCR-A
- OCR-B
- Letter Gothic
- Line Draw

### Scalable Barcode & OCR Fonts

- Code 39 Quarter Inch
- Code 39 Half Inch
- Code 39 One Inch
- Code 39 Small Low
- Code 39 Small Medium
- Code 39 Small High
- Code 39 Slim Regular
- Code 39 Wide
- Code 93 Regular
- Code 128 Medium
- Code 128 Narrow
- Code 128 Wide
- Interleave 2 of 5
- Interleave 2 of 5 Tall
- OCR-A Book Regular
- OCR-B Code 39 Regular
- OCR-B Digits Regular
- OCR-B Music Regular
- UPC Tall Regular
- UPC Tall Narrow Regular
- UPC Tall Thin Regular
- UPC Half Regular
- UPC Half Narrow Regular
- UPC Half Thin Regular
- UPC Tall Music Thin
- UPC Half Music Thin
- UPC Tall Bars Thin
- UPC Half Bars Thin
