* OXPd disabled by default
** Requires OXPd Pro Services

Removal of OPS on Pro Printers, Impact on Solutions

The HP OXPd SDK has required the installation of an auxiliary service called OXP Professional Services (OPS) for Pro products listed below. The need for OPS is now being removed with a new release of firmware for some of these printers as indicated in the table below:

Printer Model	OPS needs to be installed	OPS does NOT need to be installed
HP Officejet Pro 251 dw SFP	Yes. For all firmware versions	Not Applicable
HP Officejet Pro 276 dw MFP		
HP Officejet Pro x476 dw MFP		
HP Officejet Pro x476dn MFP		
HP Officejet Pro x551 dW SFP		
HP Officejet Pro x576dw MFP		
HP PageWide Pro 477dn MFP	OPS server is required for firmware versions less than and including 1611B.	OPS server is NOT required for firmware versions greater than 1611B.
HP PageWide Pro 477dw MFP		
HP PageWide Pro 552 Printer	For example MAVEDWMP1A001.1611B.00	For example MAVEDWMP1A001.1624F.00
HP PageWide Pro 577 MFP		
HP PageWide MFP P57750		
HP OfficeJet Pro 8730 AiO	Currently all versions still require OPS server. A future TBD version will remove the need for OPS in the Fall, 2016 timeframe.	
HP OfficeJet Pro 8740 AiO		

For the PageWide Pro printers listed above, a new version of firmware will be released on **August 5th** on the partner portal and will also be made available on hp.com & WJA on 8/29/2016. This new version of firmware will be fully ACT certified.

The OfficeJet Pro 8730/8740 firmware is scheduled to be updated in Fall and an announcement will be made once this firmware is certified and approved.

RICOH SMART SDK
